

NUVOCBD™ TOPICALS

Advanced Skin Comfort & Hydration Support

Upgrade Your Daily Skin Routine
Premium CBD + Botanical Skin Support

Modern skin is exposed to more than ever before—environmental stressors, dryness, and daily wear can disrupt its natural balance and comfort. NuvoCBD™ was developed to provide a more refined and modern approach to topical skin care—one that supports comfort, hydration, and overall skin wellness without relying on outdated, one-dimensional solutions.

At the center of NuvoCBD™ is a thoughtfully engineered formulation combining high-quality cannabidiol (CBD) with a curated blend of botanical ingredients and skin-conditioning agents. Rather than focusing on a single effect, this advanced formula is designed to support multiple aspects of skin comfort and hydration, helping your skin maintain a balanced and refreshed feel throughout the day.

This approach is guided by SENSOFF™ Botanical Technology, bringing together cannabinoids, terpenes, and functional skincare ingredients into a cohesive system designed to work in harmony with the skin's natural balance.

CBD contributes to overall skin wellness and helps maintain a calm, balanced look and feel. It is complemented by β -caryophyllene and additional botanicals such as rosemary and thyme oils for antioxidant support. Peppermint oil provides a clean, cooling sensory experience that enhances freshness without overwhelming the skin.

NuvoCBD™ also emphasizes hydration and conditioning. Sodium hyaluronate supports moisture retention, while panthenol (provitamin B5) contributes to softness. A blend of nourishing plant-derived oils helps create a lightweight, fast-absorbing texture that leaves skin feeling smooth and hydrated without residue.

The result is a formulation that absorbs quickly, applies cleanly, and fits seamlessly into a daily routine—delivering a balanced, refined skin experience.

Why NuvoCBD™ is Different

- Multi-aspect skin support approach (not single-effect formulations)
- Lightweight, fast-absorbing, non-greasy feel
- Premium botanical + CBD formulation
- Designed for daily use and real-world performance
- Clean cooling sensation without harsh intensity
